

STEEN CANNON & ORDNANCE WORKS

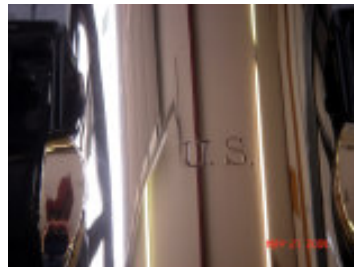

CUSTOM BARREL MARKINGS

In 2003, Steen Cannon & Ordnance Works went out into the battlefields and took rubbings of lettering from original barrels and had custom stencils made. These stencils are now being used exclusively on barrels purchased from Steen Cannon & Ordnance Works. Only when a customer needs the very best and most authentic reproduction of a Civil War Field Cannon, Steen Cannons can provide it. Below are some samples of our new stencils. We also have stamps for the 3" Ordnance Rifle, Revere Copper Co and Tredegar Iron Works, C.S.A.
